

## ➤ SECURE DATA HOSTING

### What is **secure data hosting**?

An example is the storage of your crucial business data in an offsite managed data centre to minimise risk.

### **Our enterprise class data centre is the ideal choice to safeguard your business data.**

With your **data managed and hosted offsite** you can ensure **maximum protection** and **quicker restore times** should something go wrong.

With over **12 years** of continual operational life, our dedicated data centre has a proven track record of delivering **high availability** to clients with **demanding applications**.

**Servers** are continually optimised for **security and performance**.

**Hundreds of businesses across Yorkshire and the UK trust Adept Systems with their business data**

### **Reduce risks, cut costs...**

With no centralised hardware to purchase or internal staff to employ, **capital expenditure is significantly reduced**.

**Storage management time and power costs** and are **instantly slashed**.

If your own premises encounter **fire damage, flooding or burglary**, your data will always be **safe offsite**.

### **Server monitoring...**

In addition to our **sophisticated automated monitoring systems**, a team of expert engineers monitor our data centre **24 hours a day**.

Potential issues with the systems are **identified and prevented** before they escalate into a crisis.

Ensure your **data is safe** with our **data centre**.

### **KEY BENEFITS:**

- ✓ Typical cost **savings of 20% - 70%**
- ✓ **24/7 server monitoring**
- ✓ **24/7 back up systems** – no disruption or downtime due to power failure
- ✓ **Sophisticated security** - surveillance cameras and bio-metrics entry systems
- ✓ **Fully qualified technicians** (CCNA, MCSE etc.)
- ✓ **Strict Service Level Agreements (SLAs)** for guaranteed levels of service

**GET IN TOUCH** and take positive action to protect your data and ensure business continuity...
